

The Domestic Dwelling Equivalent (DDE) varies depending on the activity. To calculate the total trade waste cost charging groups based on DDE are as follows:

Charging group	Domestic Dwelling Equivalent (DDE) Band	Trade waste fee
A	<2 DDE	\$0
B	2 - <5 DDE	\$100.00
C	5 - <10 DDE	\$200.00
D	10 - <20 DDE	\$400.00
E	20 - <30 DDE	\$600.00
F	30 - <70 DDE	Determination required
G	<70 DDE	Determination required

A4 Trade waste consent application fee

This is payable with each Trade Waste Consent Application.

A5 Compliance or extraordinary application processing costs

Time and disbursement costs, as incurred on at a rate identified in the Long Term Plan. Extraordinary application processing or compliance costs will subsequently apply.

The Trade Waste Bylaw - methodology for calculating additional trade waste charges

The following methodology will be used to apply the fees and charges set out in The Trade Waste Bylaw. This methodology is based on principles outline in the Introduction to the bylaw.

1. The Council will prepare a schedule of non-domestic consumers from their rating database.
2. Using best available information and local knowledge, the Council will assess the business function or activity and estimate the relevant local capacity of usage criteria of each non-domestic consumer on the schedule.
3. From load factors for the generic business functions or activities, an average daily flow will be estimated. In special cases, organic load may be considered, if relevant to that activity or if it may have an implication to the sewerage system.
4. From the estimate of daily flows (or organic load in special cases), the ratio of flow estimated from the activity (or organic load) to that expected from a domestic dwelling and as identified will be calculated.
5. As the assessment is not necessarily highly accurate, the calculated ratio will be averaged into one of the following groups and the appropriate charge concluded.

Ratio	Group	Charge
1 - <2	A	1 - no additional charges
2 - <5	B	3 - additional trade waste charges
5 - <10	C	7 - additional trade waste charges
10 - <20	D	15 - additional trade waste charges
20 - 30	E	25 - additional trade waste charges
>30	F	Ratio x additional trade waste charges
>70	G	Formal trade waste consent application required

6. The assessment will be forwarded to the applicant as a provisional trade waste consent, with procedures defined in section 3.2 of the bylaw.
7. For application assessed or known to have a maximum flow greater than 50m³/day, a formal trade waste consent application shall be required to be submitted by the consumer.

For further information regarding the Trade Waste Bylaw contact the Infrastructure Services Department.
